Entrepreneurship Development Programme - 2021-26

The Department of Animal Husbandry & Dairying, Government of India is implementing the scheme of National Livestock Mission - Entrepreneurship Development Programme since the financial year 2021-22. The concept of NLM - EDP Scheme is to develop the entrepreneurs in poultry, sheep & goat, pig, feed and fodder development in order to create forward and backward linkage for the produce available at the unorganized sector and to link with the organized sector.

The scheme aims to develop entrepreneurship in the rural poultry development, sheep & goat, piggery, feed & fodder development in order to invite the private investment as well as the rural youth to come forward in this sector so as to enable them self-reliant. This will help the country self-sufficient in the meat, egg and wool production which after meeting the domestic demands can be exported to earn foreign exchange.

The Government of India have decided to incentivize such entrepreneurship development through providing Maximum of 50% back-ended subsidy for the project cost as mentioned against each of the entrepreneurship projects.

All the projects envisaged should preferably have a Hub and Spoke model where the beneficiary entrepreneur will act as Hub and the farmers of the catchment area will get the benefit of the produce of hub. In this way, chain of forward and backward linkage will be developed for better pricing of the products produced by the farmers.
